LINUX COMMANDS

Cd: Change directory

```
Anudeep:/mnt/host/c/WINDOWS/system32# cd ..
Anudeep:/mnt/host/c/WINDOWS#
```

Pwd: Display current directory

```
Anudeep:/mnt/host/c/WINDOWS# pwd
/mnt/host/c/WINDOWS
```

Mkdir : make directories

```
Anudeep:/# mkdir linux_practice
Anudeep:/# ls
TodayProject                init                    new_project             sys
bin                         lib                     opt                     tmp
dev                         linux_day14             proc                    usr
docker-desktop-user-distro  linux_practice          root                    var
docker-package-practice     lost+found              run
etc                         media                   sbin
home                        mnt                     srv
```

Mv: move or rename files

```
Anudeep:/# mv linux_practice devops_practice
Anudeep:/# ls
TodayProject                home                    new_project             sys
bin                         init                    opt                     tmp
dev                         lib                     proc                    usr
devops_practice             linux_day14             root                    var
docker-desktop-user-distro  lost+found              run
docker-package-practice     media                   sbin
etc                         mnt                     srv
```

Less: Read large files page by page

```
Anudeep:/# less
BusyBox v1.36.1 (2024-05-21 13:38:37 UTC) multi-call binary.

Usage: less [-EFIMmNSRh~] [FILE]...

View FILE (or stdin) one screenful at a time

        -E      Quit once the end of a file is reached
        -F      Quit if entire file fits on first screen
        -I      Ignore case in all searches
        -M,-m   Display status line with line numbers
                and percentage through the file
        -N      Prefix line number to each line
        -S      Truncate long lines
        -R      Remove color escape codes in input
        -~      Suppress ~s displayed past EOF
```

History: Display previously executed commands

```
Anudeep:/# history
    0 ls
    1 PWD
    2 pwd
    3 ls
    4 ls -l
    5 ls -a
    6 mkdir week1
    7 ls
    8 cd week1
    9 ls
   10 ls -l
   11 touch sample1
   12 ls
   13 cat > sample2
   14 nano sample2
   15 nano file2
   16 nano sample1
   17 vi sample2
   18 cat sample2
   19 nano sample2
   20 head sample2
   21 head sample1
   22 cat > sample1
   23 head sample1
```

Date: Display system date and time

```
Anudeep:/# date
Sun Nov  8 16:47:13 UTC 2026
```

Hostname: Display or manage system hostname

```
Anudeep:/# hostname
Anudeep
```

Echo : Print text or write content into files

```
Anudeep:/# echo "Hello Linux"
Hello Linux
```

Alias and unalias : Giving shortnames for commands

```
Anudeep:/# alias cls='clear'
```

```
Anudeep:/# unalias cls
Anudeep:/# cls
-sh: cls: not found
```
